

When should I keep my child home from school?

- New or worsening cough
- Shortness of breath or difficulty breathing
- Change in sense of taste or smell

(Having one of these 3 symptoms requires an automatic 10-day school exclusion. Please contact your healthcare provider if your child has any of these symptoms. Let your child's teacher know.)

- Fever 100.4 or higher, Vomiting, Diarrhea, Red eyes with discharge, certain Rashes

(These symptoms have always required 24 hr school exclusion after last symptom ends.)

Other symptoms of COVID include fever, chills, fatigue, muscle or body aches, headache, sore throat, runny nose, nausea, vomiting, or diarrhea. Please consider keeping your child home for the day. Contact your healthcare provider if your student has any of these symptoms for more than one day.

Please do NOT medicate your child to alleviate symptoms and send them to school.

What should I do if my child recently tested Positive for COVID OR

If my child has been identified as a Close Contact of a Positive Case of COVID?

- Keep your child home
- Call the School Nurse, Gayle Oslund, RN @ 843-342-4215

Honest communication is the key to keeping all students and staff members safe!
